I am the Mother of Geetanshi and Nehansh, the students of Learning Yard and I express my deepest gratitude to all the teachers for their utmost care and for looking after my wards so lovingly and sensitively.

There are indeed many various disciplinary changes that I am witnessing in my kids after getting admission to this institution. Daily morning prayers, greetings to people and bidding graceful goodbyes are some major changes I experienced in my kids.

Also, I am quite impressed with consistent periodical activities and celebrations, the school keeps organising and these help in inculcating the habits of social bonding and group participation among kids at their tender age where kids are in a process of character building. The most interesting thing that seems me is the concept of photos and videos that parents receive through What's App. Group of my kids.

I am extremely pleased with the Management and it's functioning style. I express sincere thanks and heartfelt gratitude once again to all honary teachers for giving their best and giving assurance that the same good work shall be continue.
